OBJECTIVE

MCA student with hands-on experience in MERN stack development, REST APIs, and responsive web applications. Passionate about building scalable and user-friendly applications using ReactJS, Node.js and MongoDB. Seeking an opportunity to contribute technical skills, learn industry best practices and grow as a full stack developer.

TECHNICAL SKILLS

Programming Languages: Java, Python, C
Backend & APIs: Spring Boot, Node.js, Express.js, REST APIs, JWT authentication
Frontend: ReactJS, HTML5, CSS3, Responsive Web Design
Databases: MySQL, MongoDB, SQL
Cloud & Containers: Docker, Cloud Computing and Distributed Systems (NPTEL)
Data & AI: XGBoost, SHAP, NLP (TF-IDF, MiniLM)
Tools: Git, GitHub, VS Code
Professional Skills: Communication & Presentation, Problem-Solving, Collaboration

PROJECTS

Extreme El Niño Prediction | *Python, XGBoost, SHAP*

- Analyzed 544 monthly NOAA records (1980–2025) and built an XGBoost model predicting extreme El Niño events at 3/6/9/12-month lead times, reaching 95.6% accuracy at 3 months (LOOCV).
- Used SHAP to rank the key drivers at each lead time, turning model output into clear, actionable insights.

FutureMe | *Spring Boot, MySQL, Docker*

- Built a Spring Boot application for time-locked letters to one's future self, backed by a MySQL relational database with the database scripts kept alongside the code.
- Containerized the application with Docker for consistent setup and deployment.

AccessNova | *MERN Stack, OCR, Web Speech API*

- Built an AI-powered accessibility platform with speech-to-braille conversion, OCR text recognition and real-time assistive features for visually impaired users.
- Designed an interactive, accessible web application with braille learning modules, voice navigation, PDF export and conversion history management.

EDUCATION

Master of Computer Applications (MCA) 2025 – 2027
NMAM Institute of Technology, Nitte | CGPA: 8.39

B.Sc (Mathematics and Computer Science) 2021 – 2024
Canara College, Mangalore | CGPA: 8.06

Pre-University (12th) 2019 – 2021
Sharadha Vidyanikethana PU College | 86.5%

SSLC (10th) 2019
Uchil Bovis School | 83.2%

RESEARCH

- "An End-to-End Resume–Job Description Matching Framework: TF-IDF vs MiniLM" – Presented at ICoICI-2026, JCT College of Engineering and Technology, Coimbatore (Sept 2026).
- "Lead-Time Oceanic Predictor Importance Analysis for Extreme El Niño Using XGBoost and SHAP" – Accepted at IC2NC 2026.

CERTIFICATIONS

- Salesforce AI Associate Badge | Microsoft Applied AI
- Cloud Computing and Distributed Systems (NPTEL) | DCA (Matha Education)

ACHIEVEMENTS & LANGUAGES

- 1st place, Pick and Speak competition; Best Participant, Mahindra Pride Classroom and Naandi Foundation.

Spoken Languages: English, Hindi, Kannada, Tulu
